고객: LAN NET Solutions, LLC Industry: Telecommunications

Location: Texas

회사 배경:

텍사스 기반의 LAN NET Solutions가 Fluke Networks LinkWare Live 리워드 프로그램에서 우승했습니다. 사람들이 텍사스에서는 모든 것이 크다고 말하는 것처럼, LAN NET Solutions가 획득한 OptiFiber Pro 상품도 One Big Prize입니다.

LAN NET Solutions, LLC provides structured cabling installation solutions to support existing and emerging technologies for voice and data applications. The company, which was founded in 2013, is proud to offer its business and residential customers in Texas and the southwest high quality, honest answers to all of their cabling needs.

당면 과제

Jim Bringolf, President of LAN NET Solutions, finds that using **LinkWare Live** helps the company save time in several ways. One of capabilities the company appreciates is being able to create tests in advance, making the certification process much quicker once they are on-site. Uploading test results from job sites is also faster and easier with **LinkWare Live**.

솔루셔

LinkWare Live cuts costs and prevents errors by letting project managers check on testing progress, without being physically present. "That was one things we were really excited about when we were working on a big project recently," said Scott Hooks VP and Owner. "We had a total of 8000 tests for this particular job, and we were able to set up and name all of the tests ahead of time. Then, while testing was underway, we could check to see what percentage was done while we were sitting in the office."

Result

LinkWare Live was introduced by Fluke Networks late in 2014. It's a cloud-based service that works with Fluke Networks Versiv testers, including DSX-5000, OptiFiber Pro and CertiFiber Pro certification testers. The LinkWare Live platform allows users to upload, manage and analyze complex certification test results from anywhere. To date, more than one million test results have been uploaded to the LinkWare Live platform by Fluke Networks customers.
