

ECR Informatique

목차

Fluke Networks is pleased to announce that ECR Informatique, a leading company in the cable installation market, acquired the new Versiv platform, now with a fleet of 7 cable certifiers with **DSX-5000** replacing DTX-1800 in order to consolidate its position and deployment in structured cabling solutions systems at both DataCenters and horizontal cabling levels.

2001년에 만들어진, 칼바도스(프랑스)에 위치한 ECR는 표준 환경이나 특수 환경에서 또는 제조업체 인증에 따라, 모든 유형의 로컬 영역 네트워크 (TP케이블, 광 케이블, 무선, 레이저) 케이블 설치에 전문화되어 있습니다. ECR acts on behalf of businesses, local communities, public and private institutions (education, health...) on their main site or remote facilities, and is also a subcontractor for major clients taking charge of large scale projects featuring local networks.

ECR Informatique installs, distributes and certifies over 10,000 copper and fiber optic links every year. By preparing projects with the new Fluke Networks ProjeX management system, ECR Informatique saves time not only by managing several projects simultaneously, but also by gathering reports quickly with a single click in the LinkWare software.

With interchangeable modules for testing copper and network links (with the OneTouch module), the Versiv platform allows ECR Informatique to get the validation of installed cabling systems and the maintenance of customer information systems in a faster, more accurate and cheaper way.

"By being one of the first buyers of the new Versiv platform and in particular **DSX-5000**, we move forward with technological developments rather than falling behind. This gives us an advantage over our competitors in complex projects." says Jean-Fred Bachelet, founder of ECR Informatique. "We are used to working with demanding companies that want flawless subcontractors. This starts with the measuring equipment that should be accurate and calibrated periodically as standards require. We have been operating with Fluke Networks' products for many years and we are proud to remain on the forefront of installers."

Fluke Networks, manufacturer and publisher, sells a range of products for the analysis and monitoring of business and communication networks, as well as the installation and certification of copper and fiber optic cabling for computer networks.

Fluke Networks에 대하여

Fluke Networks는 중요한 네트워크 배선 인프라의 설치 및 정비를 하는 전문가를 위한 인증, 문제 해결 및 설치 도구 분야에서 세계적인 선도 기업입니다. 최고급 데이터 센터를 위한 설치부터 혹독한 기후 하의 복구 서비스에 이르기까지, 당사의 전설적 신뢰성 및 독보적 성과의 결합은 고객의 모든 작업이 효율적으로 달성되는 것을 보장합니다. 기업의 주력 제품은 현재까지 1,400백만 이상의 결과가 업로드된 혁신적인 세계 제일의 클라우드 연결 케이블 인증 솔루션인 LinkWare™ Live를 포함하고 있습니다.
